GOOSE STEP GAME DAY

Match Day Preview

North Beach Sea Eagles vs Rockingham Sharks - Top of the table and undefeated. Both teams have had great starts to the season and this one looks to be an absolute belter. I would take little solace in how these team lists read with many changes likely to occur either before kick off or during the course of the game. For the Sea Eagles, Craig goes to the back, with the young pairing of Millar and Rogers in the halves. And while Gillett is missing for the week, they have a pretty handy replacement in De Vorms to fill the centre spot. With their starting pack their strongest lineup, its an imposing Beach side. For the Sharks, Gasu stays in the centres after his impressive showing two weeks ago, and they welcome back Jeffery on the bench in a massive boost. With the other notable change, the impressive Lui starting up front, who has been a menace in the lower grades recently.
Fremantle Roosters vs South Perth Lions - Well the Roosters look the most complete lineup they have been in a long time. A good problem for coach Edwards to have, he has actually had to leave guys out this week, instead of asking guys to come up. Pouhila and Wells-Talamaivao are the centre pairing, while Luke-David and Sonny Kerr create a brand new halves partnership, that the Roosters hope will pay dividends. And of course Paora Kemp is back, which forces Rangihaeata onto the wing, although I doubt he will stay there. Obviously missing from that list is Delane himself, but time will tell if he takes the field. For the Lions, they have even more new names and look to have an average age of around 19 years old. But Brandon Wright is a huge edition in the centres, while Tuatara starts in the back row. With Proudler out for a period, Galvin-Dawson will need to grow quickly in stature to relieve some pressure on Debique and co. Great to see Daniels back in the lineup at the back as well.
