GOOSE STEP GAME DAY

Fuel to Go & Play™ Premiership

Match Day Preview

Rockingham Sharks vs Joondalup Giants - Well the Sharks are back at home after a week off and they've been watching the last couple of weekends intently. And they look like they are ready for a big push to the end of the year. Coach Tom Murphy is back at 13, with Gilchrist at 9. This frees up the ever agile Coleman to goto halfback, and puts Loader into the front row, where they will need to be tough. For Joondalup, there are a few changes, most notably the loss of Sheehan in the lineup. Payden also goes out after a big game last week, but Pomare, Kingi and Carruth form a formidable backrow for the Giants. But all eyes will be on young gun Tiger Williams, who makes a start at 6 outside Marshall, who was at his scheming best last weekend. The winner of this one will carry some much needed momentum into the final rounds.

South Perth Lions vs North Beach Sea Eagles - Its cruch time for the Lions. They need a win and they need it badly if they are going to feature in this years finals. In plenty of games this year they have been either to slow to start, or been in the game and just finished off poorly. But the cavalry is back this week. Daniels is in at centre, and they have kept the exact same spine for their 3rd week in a row which is ultra rare for them this season. The form of Wiringi and Kanawale has been a sight to behold this year as they continue to get better and better. The Sea Eagles, will be looking to shake off their blues this week. Their last tackle kicking options will need to be rectified, along with some edge defence, but they will welcome back Gillett in the centres, with Rogers back for a week, after he was selected in the CAS team. Lloyd goes to hooker, with Gillham and Stein back in the lineup, in what looks like their strongest forward pack for a while with the inclusion of Tarrant. Should be a ripper!
