KEY MATCH UP

Eli Beattie

Probably the two most damaging players in the competition in terms of physicality and speed, we have two strike centres, who their teams will look to make a difference. Beattie is an out and out wide threat. With strength, speed and work ethic, he can beat you with pace or power and the Roosters look to him often when attacking the line. Leota is all power. Quicker than he looks, he is a master of making contact on his own terms and leaves defenders in his wake so often. As you can tell from both players photos, they always seem to have people chasing them!

KEY MATCH UP

How players react when the going gets tough is the key to winning finals matches. And they don't get much tougher than these two customers. Dom is as hard as nails and is electric when he gets his hands on the ball. A tough defender and stronger ball carrier, teams cannot relax around him. Thomas has come back from oblivion to basically stamp a case for best come back in 2025. A hard worker, he loves the tough carry and leads through the middle of the field. A smart player as time has gone on, both of these guys will have alot to say come Saturday.

KEY MATCH UP

Levi Taita-Abels

A couple of try scoring machines in this one. Levi, playing in the backs for North Beach, has been racking them up in an impressive display of speed and footwork. While young Tahu came into the Bears team late, and has been on a tear with a bunch of his fellow youngsters. Capable of ball playing or just cutting teams open with speed. Two great ball carriers.

KEY MATCH UP

Sinead Loundes

Two of the best players in WLT in the last decade go head to head and boy its a cracking matchup. Loundes has been scoring tries for fun in tag and tackles, which shows she can bring it, while Warren is constantly one of the Giants top performers. Both have speed, ball playing and the ability to read the play before it happens. Should be a game deciding matchup.
