KEY MATCH UP

Jayden Evans

We have some talented hookers in our competition at the moment, and with these two its no exception.Evans is electric out of 9, with his bursting runs impossible to contain, and his toughness cannot be questioned, especially after his star turn against the Victorians at CAS. Buckley is a bit of a older journney man but is quicker than he looks and just at comfortable at five-eight as he is at 9. Hard working and honest. Comparable to a battle between Damien Cook and Ben Hunt, get ready to watch two great 9s goto work in this one.

Justin Buckley

KEY MATCH UP

Chase Rye

A lot of young talent is in both teams, but we have focused in on a couple of their leaders who will be instrumental in this games outcome. For the Bunnies its playmaker Chase Rye. The 2023 VMT player of the year, Rye competes every single second that clock is ticking. A high energy player, with speed and skill, he creates opportunities with his devastating running game. Godecke, affectionately known as he GOAT, has done this a few times. Quick off the mark, calm and crafty, he can play any of the spine spots easily and can sniff an opportunity from anywhere on the pitch.

KEY MATCH UP

Tyler Anstis

"Vocal Leaders" would be the nice way to sum up these two players, but some oppositions might just call them "pests". Either way they are motivated, competitive and you can hear them talking throughout the entire game. Adept ball players and comprehensive defenders for smaller men, they will have a big part to play in this fixture for both sides.

KEY MATCH UP

Zarah Suamili

Its a bit of veteran vs new girl here with two dangerous and talented players set to showdown. Suamili is a free flowing playmaker, who has speed and a brilliant right to left passing game to go with it. Timoko is hard working, unassuming and a busy defender who loves getting involved in the play no matter where it is. Watch both be vocal leaders.

Ash Timoko
