MATCH PREVIEW

Blueforce Cup is here, its 1st vs 2nd and its also the NRL Pathways Key Game. And it should be an absolute screamer. Both teams have been a little off, so will be looking to get back into rhythm a couple weeks out from the finals. For North Beach, Nairube and Grey are back in what is a massive shot for the Premiers. Its a new backrow of Dickinson, Sparrow and Gulliver Brown and they look ready to roll. For South Perth, Barclay is missing, with Javapro going into that spot. But the big in is Hiko into the prop forward spot, with the impressive Russell and Noble filling up those middle spots. Maliko makes his debut in first grade as well after impressing.

MATCH PREVIEW

Pride is on the line here as the Fremantle Roosters look to get themselves right for the final, while the Giants will be getting more experience into their very young team, looking forward to 2026. For Fremantle, Hignett goes to the back with no Rangihaeata, and the versatile Paki goes to the wing for the injured Woolley. For the Giants, L Williams goes to the back, with Whyte onto the wing. Sheehan slides into the 6 for the missing Marshall, with Colman returning in the 13. Both sides have a few injuries as well, so will be reaching into the lower grades to fill up their bench, much like alot of the other Premiership sides at this time of year.

MATCH PREVIEW

And in our final game of the weekend we have what should be a cracker. With the Willagee Bears, who are a genuine threat to the competition this year, taking on the young confidant upstarts from the Rockingham Sharks. The Sharks have won two on the bounce and pushed some good sides of late and are full of running as they look to a bright 2026. Batchelor goes to centre, which puts Webb on the wing. And no Whitty means young Christy gets a start at 9. For Willagee, theres big changes. Kelly goes to fullback, with Gudgeon in the 6, and Fotu, Vi, Mahuta and Chan Boon are all back and push some very good players down to Val Murphy Trophy.
